

## FOUR LADIES HURT

Horrible Runaway Accident That May Result Fatally.

OCCURRED RIVERSIDE PARK

Mrs. T. H. Miller and Miss G. Gilbert Injured the Most.

A runaway accident which happened in Riverside park last evening resulted in serious injury to two persons and possibly three. They are Mrs. Blanché Chandler, Mrs. Miller, Miss Grace Gilbert and Miss Ella Chandler. The doctors say that the injuries of Mrs. Miller and Miss Gilbert may prove fatal. The other lady, Miss Chandler, will recover. Miss Schriver was also in the accident, but was not seriously injured.

The accident occurred at the north end of the Greifentstein bridge and was one of the most serious that has occurred in the city for years.

The young ladies were out driving in a trap drawn by a single horse at the time of the accident. They had been driving over the city during the early part of the evening. The horse and trap is owned by the Gilbert family and Miss Gilbert had been driving all evening. After their ride in the city they entered Riverside park at the Central avenue entrance and went through the central part of the park. After having been around the various drives, it was suggested that they cross into the north part of the park and go around the drive toward the west end. The horse was going slowly at the time and Miss Gilbert started him up, and as she did so, struck him with the whip. At that instant he gave a sudden jerk and commenced to run. He was headed for the Greifentstein bridge and before reaching there all four ladies took hold of the lines in an attempt to check the animal, but without avail. Officer Wood was at the end of the bridge at the time, and seeing the runaway, tried to stop the horse but could not without changing its course to the river, which would have resulted disastrously. He let the horse go and he ran straight across the bridge, not striking anyone, although there were people on the bridge at the time. The horse was running at breakneck speed while on the bridge and all the time the young ladies were trying to control him. When the other end of the bridge was reached the horse started to turn west, but had gained such headway that it was impossible for him to make the abrupt turn at the bridge, and on account of this the trap was overturned near the large tree in the flower beds at the end of the bridge.

The young ladies were all thrown out and hurled to the ground with terrific force, three of them, Mrs. Miller, Miss Gilbert and Miss Chandler, striking the tree. Miss Schriver was thrown some ten or fifteen feet farther on than the others. The three ladies were all lying close together surrounded by parts of the trap, and when taken out, were all unconscious. The park was filled with people at the time and many came to the assistance of the injured ladies. When found Mrs. Miller's head was between the rear spring of the trap and it was with some difficulty that she was removed. Blood was coming from one of her ears and the injuries on the side of her face were severe. She received other injuries which were apparent at the time, but it could not be ascertained at the park how serious they were.

Miss Gilbert received a very bad cut under her chin, is injured in the back and also internally, one thumb broken or dislocated.

Miss Ella Chandler was injured in the back and badly bruised on the side of her body. She was the first to regain consciousness.

Miss Schriver, when picked up, was found to have a bad cut under her arm and an ugly bruise on her forehead, but nothing further.

The injured people were quickly moved to their homes by the ambulance and patrol wagon and physicians immediately called. Mrs. Miller was unconscious when removed to her home, but Miss Gilbert regained consciousness just before the ambulance arrived on the scene. Dr. Purdus, her physician, was present in the park and gave her as much aid as was possible at the time.

After arriving at the home a more thorough examination of Mrs. Miller's wounds was made and it was found that there was a concussion of the brain, besides internal injuries. The other ladies Hoffman were called to take charge of Mrs. Miller and Miss Chandler. Dr. Purdus was called to the Gilbert home on North Waco.

After an examination of Miss Gilbert's injuries Dr. Purdus stated that a number of ribs were broken on her right side, also injured in her back, one hand in a bad condition with a thumb dislocated, and that at the time of the injury she was bleeding internally. She had a very severe cut on her chin, but that was not considered as serious as her other wounds.

Miss Chandler's condition was not considered as serious as the others and will probably recover unless internal injuries should develop.

Miss Schriver was able to be taken to her home from the Chandler residence on North Topeka avenue and the physicians think that she will soon recover from her injuries.

Mrs. Miller is from Amarillo, Texas, and was visiting with her parents on North Topeka avenue. She was formerly Miss Blanche Chandler and is well known in the city. Her father, J. E.

## ADD MACHINE SHOPS

Walterschied Bros. Equipping Plant With Machinery.

NECESSARY TO DO WORK

Preparing to Buck Topeka's Machine Shops.

Walterschied Bros., manufacturers of pumps, have decided to put in general machine shops, and they are now equipping the plant with the necessary machinery to do the work.

Wichita has long felt the necessity of an institution of this kind, one that could turn out the work equal to cope with the other industries of this kind throughout the state. At present there is no works of this kind in the city that do general machine work.

When the Walterschied Bros. came here and purchased the pump factory they decided, when the opportunity came, to build up an add machine shop, which they concluded would greatly aid in promoting the interests of the pump establishment. Instructions were immediately given to A. Glass, the foreman, to make out a list of improvements necessary to complete the machine shop. This has been done and the trade resulting from the project has reaped such satisfactory results that it has been found necessary to increase the capacity.

This firm recently decided to put up a building of their own, having bought several lots on Mosley avenue between the Rock Island and the Midland railroad yards, the proposed site. The plans have already been drawn and the contract is to be let in a few days. Work was to have been commenced several weeks ago but the inability of the Santa Fe Railroad company to erect a switch to the site so that the building material could be transferred without inconvenience or trouble delayed the work. The switch will probably be put in this week, when the contract will be let and the work on the building commenced. When drawing the plans the firm was contemplating the machine shop department, and the plans were made to admit the new enterprise.

It is the intention to have the building in readiness for occupancy on October 1, and at that time an almost new equipment will be installed, including lathes and other machinery used in a well regulated machine shop. Mr. Walterschied informed a reporter for the Eagle yesterday that when the new departure was fully equipped they would be able to compete with similar institutions in the west and turn out the same work as is done at Topeka and other machine shop points in the state. This firm already employs about twenty workmen and the machines when a good trade is worked up will furnish employment to as many more.

This new improvement is more evidence of the prosperity found here and also shows that Wichita is destined to become the industrial center of Kansas and the middle west.

Pennsylvania Visitor Tells Where This City is Superior.

H. W. Hoover of Harrisburg, Pa., who with his family, has been visiting in this city Mr. and Mrs. A. J. Weaver and Mr. and Mrs. C. E. Weaver, has returned after a visit which impressed him with its delightfulness. He went away in love with Wichita and before going said to a reporter for the Eagle:

"The view from your country house is one which I wish every Pennsylvania could enjoy, as it opens up to one's vision not only the area of the city, but a wide expanse of the most beautiful country one could wish to see. Riverside park is another feature I liked, as it is a spot of natural beauty, the like of which one does not find when visiting many of our eastern cities. The buildings, also those of the university and other educational buildings, are not only a credit to your city, but should be the pride of every citizen of Wichita."

"Again I wish to express a most sincere feeling of thankfulness to the members of the Young Men's Christian association with whom I met and had the pleasure of addressing on last Sabbath, and to Brother Fuller, the general secretary, and Brother N. A. Postlewaite for their kind and hearty reception and entertainment. With them I had the pleasure of visiting various places of interest, not the least of which was the packing house of J. Dold & Co. This I should be a drawing card for visitors to your city, and the cordial greeting extended to one by the men in charge of this great business makes one feel free to ask questions which are quickly and most respectfully answered, and not only this, but every point of interest is fully explained to a stranger visiting the large place of business. While there I had the pleasure of meeting Mr. Rathman, for whom the famous pressed ham package is named, who very kindly extended to me a sample of these famous sausages, also the Dewey ham sausage, both of which are only manufactured by the J. Dold Packing company."

**PLEASED WITH WICHITA**  
Party of Illinois People Enthusiastic With Buildings and Parks.

A party of Illinois people have been in the city for the last two days looking at the park and the buildings in the vicinity of the Rock Island and the Midland railroad yards. They were very much pleased with the view of the city and the surrounding country, and were surprised at the fine business blocks which the city affords. For a short time they were driven through the parks and were enthusiastic over the splendid park system of the city.

Mr. M. H. Anderson, one of the party, was seen by a reporter for the Eagle yesterday, and in the course of a conversation said: "Wichita is a splendid place. We had no idea when we started on our trip here that we would find such a thriving city in this part of Kansas. We had all often heard of your city, but it has been impossible for us to realize the importance of it in reality."

"I was especially struck with the beauty of your park system and I think that your city officials should be complimented on the splendid manner in which they are kept up. They would be a credit to many an older city, and under such care as at the present time will be maintained in the future few years."

"Will your party make investments here?" was interrogated by the reporter.

"Well, as to that, I cannot say at the present time. We have been much impressed by the splendid crops of this section, and in all probability we will invest in some Kansas real estate before returning home."

"Yes, your county and city are fine and we are glad that we have seen with our own eyes the much talked of Kansas place."

**IN REGARD TO THE MEDALS**  
Late Mr. Stimpson Gave Them to Mrs. Mosher.

Mrs. C. W. Mosher, at whose house the late Herbert Stimpson boarded desirous to make a correction in regard to the medals, the decorations of honor possessed by the young man. She says that she never stated, as claimed in the paper, that she did not know where the medals were. When Mr. Stimpson was sick and was laboring under mental anguish she had taken care of him, and he owed her money and felt that he was without a friend anywhere. One day he gave her his medals and said: "Mrs. Mosher, will you please take my medals and keep them. You have done me great favors."

Mrs. Mosher says that she took this to be a gift and she will retain them as she expects to hear from some relative who will want them.

In conversation yesterday Mrs. Mosher said that Stimpson had worried himself into suicide. She says she believes that he was not dishonest save in this one instance and that he expected some sort of an inheritance or other income to meet his deficit in his client's accounts. "He frequently had the whole run of the house," she said, "when we were away; when we had left our watches and pocketbooks and everything we had lying about. Of course nothing was ever disturbed. In his conduct in our house he was a perfect gentleman. His sickness and worry previous to his death and the bringing of our names into the public print since the affair have worried me greatly."

Mrs. Mosher believes that Stimpson had intended to commit suicide in the house, but that when he went upstairs he saw her daughter and reflected that the shock would be on her and the trouble it would cause the family if he killed himself there, and so waited until he reached the church house.

**A Child Enjoys**  
The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle. Manufactured by the California Fig Syrup Co.

**OLDEST BEADS ON EARTH**  
Exhibited by Mr. Underwood, an Indian in Wichita.

Yesterday Mr. Asbury Underwood, a Cherokee Indian, exhibited in the Eagle office three dull-purple, cylindrical beads which he said were the oldest beads in the world. William Penn gave the Indians 218 years ago in part payment for the state of Pennsylvania.

Mr. Underwood said: "Grandma has a whole lot of these beads, and we try to keep them in the tribe and whenever we visit on the state we will pay a dollar a yard for them."

Mr. Underwood was brought to the Eagle office by Mr. James Woltz. Underwood lives at Bartlesville, Indian Territory, and is troubled with his lungs and was on his way to Colorado for his health. He attracted a good number of people to the store, and one of his old dress, which was after a civilized kind everything save his vest, which was brilliantly embroidered in beads.

Asked to show the Penn beads he went down in his pocket and brought forth a leather purse from which he extracted the beads. He said that he had a dime of the issue of 1811 which has been in the possession of his family since that date.

"Every year," said Mr. Underwood, "we have a church meeting, we Cherokees, and it lasts for fourteen days, and we hold only one meeting a year."

"Not a dance at all. It is a church meeting. But I am sorry to inform you that we admit only Indians. We always take these beads with us."

Mr. Underwood, while educated, was very clear about why the Cherokees took such an interest in the Penn beads. When Penn dealt with the Delaware and not with the Cherokees.

"Anyhow," said Mr. Underwood, "he was the first white man to deal fairly with the Indians."

Underwood's name was printed on a linotype and presented to him and he was not at all carelessly as he did the dime and the beads.

Mr. Underwood had his head shaved, except for two long braids from the crown of his head.

Mr. Woltz, who has had a good deal to do with Indians, says that Underwood speaks the best English he ever heard from a red man.

## ADD MACHINE SHOPS

Walterschied Bros. Equipping Plant With Machinery.

NECESSARY TO DO WORK

Preparing to Buck Topeka's Machine Shops.

Walterschied Bros., manufacturers of pumps, have decided to put in general machine shops, and they are now equipping the plant with the necessary machinery to do the work.

## ..SUMMER GOODS MUST MOVE..

We must clean up on everything pertaining to Summer Fabrics before the end of next month. We have determined to do this, and will offer rare August bargains during the entire month. We start in tomorrow (a little soon for August) to offer goods which have had the big share of the early season price sliced off, but the value still remains.

## First Comes Percales

Sample pieces of these are in the north window. We probably have 175 pieces in this lot. None of them were sold for less than 10c, and many of them for 12 1-2c. Full 36 inches wide; all this season's patterns. They go tomorrow (Monday) at 7 1-2c a yard.

## Then Comes Wrappers

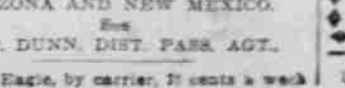

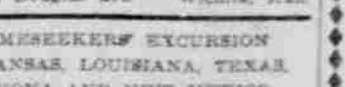

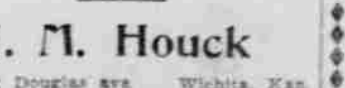

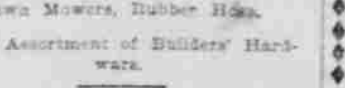

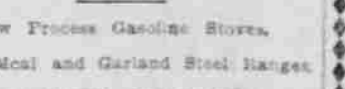

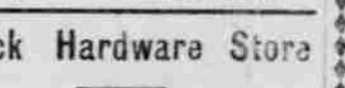

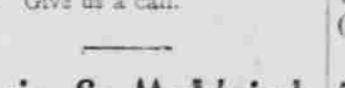

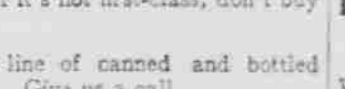

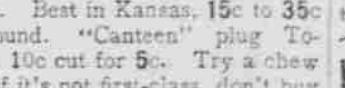

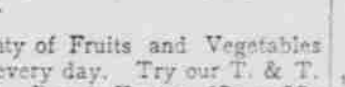

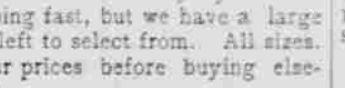

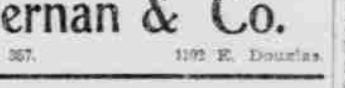

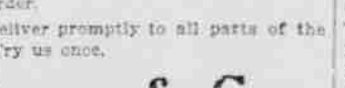

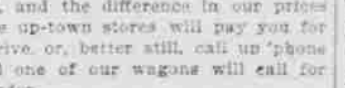

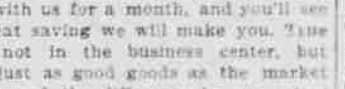

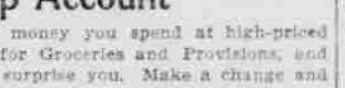

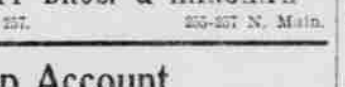

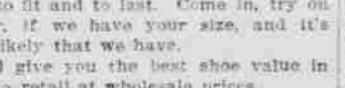

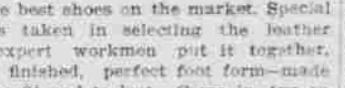

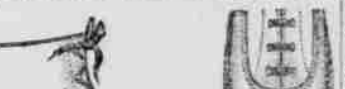

Made from the same cloth as we speak of above, all full regular made. Some braided and trimmed; also flounced. Never priced before at less than \$1.25. Tuesday your choice from many styles and some 200 patterns for 95c.

## And So On

We will continue to throw out upon the counters, desirable merchandise at prices to move them and create business. Fifty pieces of wash goods, selected from the 8 1-3c and 10c piles. They are now in the window. You can choose from this lot Wednesday at 6c a yard.

## If You Have a Want

In Millinery, our Millinery department on the second floor can save you money, for prices in this department are literally hacked to pieces.

## Belts

All of our 75c, 85c and \$1 lines put in this lot, together with a lot of dog collar, and fancy buckled Belts, which are not the popular kind at present, but only a few months ago were good sellers at \$1.50 and \$2 each. All these now on sale at 39c each.

## More Pillows

It beats all where they all go. Here is another lot of 400, all sizes, filled with shredded feathers.

## Men's Neckwear

We have about 600 Neckties now on hand in all the late shapes. They sell everywhere at 50c. This week we make a price that is as helpful as the article is useful. Choose from any 50c Neckwear at 35c.

## Mantels...

We have the largest stock, best assortment and finest line in the west.

If you're building or repairing your home and wish it modern you can't afford to omit putting in a fine Mantel and Grate. We have a large stock and excellent assortment of high grade Mantels, all up-to-date styles and designs.
